About the Institution

The Jyoti College of Management Science and Technology has started its journey from the year 2000. It is also symbolized as JCMST. During the period of 20 golden years JCMST has thrived so much. It has enriched with various Departments like Education, IT. & Management, Nursing and Paramedical. JCMST helps the students to discover the new experiences in a dynamic and supportive environment. The campus of the college has more than 01.9 Hect. land and lush green field with open ground for co-curricular and sports activities, and well maintained buildings in a pollution free zone.

The Department of Education was started in the JCMST campus since 2006. It has well equipped labs, good classrooms and a very rich library as per the requirement of the students of 300 of B.Ed. and 50 of M.Ed. each year. The Department of Education is NAAC Accredited: "Grade B". The dept. is enriched with well qualified faculty members to guide the students for their better future and making them the good citizens of the society and the country too.

About the Conference

Indian higher education system is the third largest system of the world, next to United States and China. We have developed a very vast higher education system since independence. The institutional framework of higher education in India is very complex. It includes various types of institutes and universities. According to UGC websites there are 907 universities in March 2019 in India. This figure includes 48 Central Universities, 399 States Universities, 125 Deemed Universities and 334 Privates Universities except the Medical Colleges, IIMs and IITs.

The Indian higher education system facing very ups and downs with a lot of unanswered questions which become more complex with the passes of time. The expensiveness, mental stress for academic achievement, very scarce quality education, un-unified syllabus as per the demands of the competitive exams, commercialization of higher education, lack of quality research trends, non attending and irresponsible attitude of the students, increasing number of brain -drain are some major issues of higher education which have some remarkable reasons behind them.

Hence, it is the human nature that we always try to do our best with positivity for making the social and educational environment more healthy in the development of the country. In the same way the higher education system in

India needs some drastic change and a revolution against the deficiencies, in order to improve the ranking of higher education and implementation of the innovative approaches.

The sub-themes of the conference will help us to understand and interpret the innovative strategies which will make the higher education more beneficial and strong in the sense of quality. The valuable suggestions and outcomes of the conference will also lead us to find out the facts and to do some efforts for improving the deficiencies of the higher education and making the youth of the society more strengthen and the country as well. So with these objectives we JCMSTians invited your papers on the following sub-themes-

Sub-Themes

1. Developing Quality Institutions
2. Meeting Societal and Industrial Demands
3. Reforming Examination System
