About the Institution

The Jyoti College of Management Science and Technology has started its journey from the year 2000. It is also symbolized as JCMST. During the period of 20 golden years JCMST has thrived so much. It has enriched with various Departments like Education, IT & Management, Nursing and Paramedical. JCMST helps the students to discover the new experiences in a dynamic and supportive environment. The campus of the college has more than 01.9 Hect. land and lush green field with open ground for co-curricular and sports activities, and well maintained buildings in a pollution free zone.

The JCMST campus is one the renowned institutes of Bareilly. It has well equipped labs, good classrooms and very rich libraries as per the requirement of the students of B.Ed., M.Ed., Nursing. The Department of Education was NAAC Accredited: "Grade B". All the departments are enriched with well qualified faculty members to guide the students for their better future and making them the good citizens of the society and the country too.

About the Seminar

In the 21st century India is denoted as "Youth India" because every third person in an Indian city is youth. Half of its population 1.3 billion is below age of 25 and quarter is below age of 14. India's young population is its valuable asset and most pressing challenge too. The youths are very much concern with higher education; higher education and research institutions are the direct contributors in enhancing innovations and increasing the emerging economics of the country. In such situation it become essential to provide safeguard for the innovations with the knowledge of Intellectual Property Rights and make the perfect bond between Higher Education and IPRs like 'Sword and Shield' to protect the innovative creations of our youths and motivate them with the power of protection.

There is a great need to create large public awareness about the IPRs especially to young learners who have extraordinary talent to do the miracles in any field. If these miracles are patented and taken up for commercialization by startup India Programme, it will give a competitive advantage to the inventors and entrepreneurs.

The sub-themes of the will help us to understand the interrelation between higher education and intellectual property rights, effects of IPR in transformation of higher education and in preventing the original research work. For protecting the exceptional capabilities of our youth it is tremendously essential that they must have awareness and knowledge about patent, copyrights and trademarks.

The valuable suggestions and outcomes of the seminar will lead us to find out the strategies through which we can

make our youth, their capabilities, society and nation more logical, strong, developed and prospers. So with such objectives we JCMSTians invited your papers on the following sub-themes-

Sub-Themes

1. Concept, Meaning and Importance of IPR in Higher Education
2. Intellectual Property as Right
3. Transformation of Higher Education through IPR
4. Preventing Plagiarism in Research
5. Protection of Innovations and Traditional Knowledge through IPR
6. IPR and Issues in use of ICT in Education
7. Mechanism of Imparting Education of IPR
8. Awareness about Patent, Copyright and Trademarks.
